# Dev Gadhvi - No.1 Passionpreneur Mentor

First Generation \$ Millionaire | Ask me - How to Quit Job & Become  
a Passionpreneur | Highly Paid Indian Influencer | CoFounder 1  
Crore Coach | Twice Best Selling Author

Pune

## Summary

How a Truck Driver's Proud Son Quit his Job and Built a Coaching  
Business to become a First Generation \$ Millionaire within 29  
Months?

I was born in a humble family where my parents struggled to get us  
the education in an English medium school

I struggled to speak proper English and hence I did not find jobs  
even in BPOs easily

After lots of effort finally I managed to get into decent jobs.

I worked in job for 16 years. Changed more than 8 companies to  
reach the monthly income of Rs. 3.5 lakhs

What I did not like is the fact that I was still following the orders and  
not following my PASSION!

I used to think that I was born to work in 9to5 for my whole life but  
then I found my Passion and Purpose.

I started to invest lots of money on my self development. It was Rs.  
16 Lakhs in just 20 months.

What it did was, it helped me build my business around passion.

Within 2 years, I became highly paid Indian Influencer who charged  
Lakhs for my keynote speeches, mentorship fees and consulting.  
Became Best Selling Author, TEDx and JoshTalks Speaker, and an  
International Speaker.

I went from charging Rs. 1 lakh per client to Rs. 8 Lakhs within 20  
months. Generated over Rs.10 Crore within 29 months!

Now, of course this was not a cake walk or smooth but it wasn't that complicated either. I understood that anyone can do what I am doing if they know what I learnt from my mentors like Dan Lok, Grant Cardone and others.

You must be wondering what exact steps did I follow and curious to know how you can learn them, right?
